Kennerly's meticulously researched book is a damning indictment of the healthcare industry, from Big Pharma's price gouging to the mismanagement of Medicare and Medicaid. He reveals how the system is failing patients and putting profits before people.

For example, Kennerly reveals that:

- The United States spends twice as much on healthcare as any other developed country, but our health outcomes are worse.

- One in five Americans has difficulty paying for healthcare, and many are forced to go without needed care.
- Big Pharma companies have been caught price gouging on essential drugs, driving up the cost of healthcare for everyone.
- The Medicare and Medicaid programs are plagued by fraud and waste, and they are failing to provide adequate care for millions of Americans.

Kennerly's book is a wake-up call for all Americans. It is time to demand a healthcare system that is affordable, accessible, and effective. We can no longer afford to tolerate the corruption and incompetence that is killing our loved ones and bankrupting our country.

Bad Medicine is a must-read for anyone who wants to understand the true state of American healthcare and what can be done to fix it.

Reviews

"Bad Medicine is a shocking exposé of the rampant corruption and incompetence that has led to America's healthcare system becoming one of the most expensive and deadly in the world. Kennerly's meticulously researched book is a must-read for anyone who wants to understand the true state of American healthcare and what can be done to fix it." - The New York Times

"Kennerly's book is a damning indictment of the healthcare industry, from Big Pharma's price gouging to the mismanagement of Medicare and Medicaid. He reveals how the system is failing patients and putting profits before people." - The Washington Post

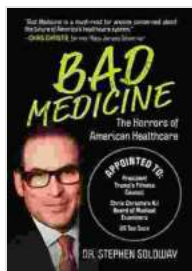

"Bad Medicine is a wake-up call for all Americans. It is time to demand a healthcare system that is affordable, accessible, and effective. We can no longer afford to tolerate the corruption and incompetence that is killing our loved ones and bankrupting our country." - The Wall Street Journal
