Smith's book is full of funny and relatable stories about her own children, as well as practical tips and advice for other parents. She writes about the importance of patience, laughter, and self-care, and she reminds us that even the most challenging moments of parenting can be filled with joy.

One of the most important things that Smith has learned from her children is that they are capable of so much more than we give them credit for. She writes about how her oldest son, who is now 10, has always been a natural leader and problem-solver. When he was just 5 years old, he organized a neighborhood lemonade stand to raise money for a local animal shelter.

And when his little sister got lost in the grocery store, he calmly took charge and found her within minutes.

Smith's daughter, who is now 8, is a creative and imaginative child. She loves to draw, write stories, and put on puppet shows for her family. Smith has learned to appreciate her daughter's unique way of seeing the world, and she often encourages her to share her ideas and perspectives.

Smith's youngest child, who is now 5, is a bundle of energy and enthusiasm. He loves to play outside, explore new things, and make people laugh. Smith has learned to appreciate her son's zest for life, and she tries to channel his energy into positive activities.

Smith's book is a reminder that children are not just our future, but also our present. They can teach us so much about ourselves and about the world. By listening to our children and learning from them, we can become better parents and better people.

Funny Reminders: How Kids Can Help Mom Reimagine Family in 2024 is a must-read for any parent who wants to raise happy, healthy, and independent children. It is a book that will make you laugh, cry, and think, and it will leave you feeling inspired and hopeful for the future.
